## WHAT IS Nitecoin-pay?

**Nitecoin-pay** Is a new digital currency founded in late April 2018 using the Smart Contract ERC20

This coin was founded by the Team Nitecoinpay.

This currency came to solve several problems, including:

- Add e-currency transfers and link e-banks with the entire digital currency community and enable them to convert their assets from Bitcoin-Etherum-Neo-Dash ... through our future platform through the main currency (Nitecoinpay). Get the digital currency. Our encryption system involves currency trading between all these currencies and electronic banks and creates a new kind of relationships and value added.

- The possibility of withdrawing money through the application of (Nitecin) to electronic banks such as (Paypal .skrill.payza.payeer.advcash.perfect-money.cihbank morroco.visacard...)

- Buy from electronic stores such as (Ebay .banggod.ali baba.gearbest.igraal.trivago.sonny.samsung...) in the official currency Nitecoinpay

- Visa Nitecoin cards to withdraw funds

In addition to the many advantages we can not disclose under the non-disclosure of agreements

## Our goals

### Currency Conversion

Our mission is to add e-currency conversions and link e-banks with the Cryptocross community in full and enable them to convert their assets from Bitcoin-Ethereum-Neo-Dash ... through our future platform through the main currency (Nitecoin) The digital currency is earned. Our cryptoeconomics involves the trading of the currency between all these currencies and electronic banks and creates a new kind of relationship and value added.

### Shipping Accounts

You can simply ship any account to the following banks (PayPal,skrill-Nettler-Perfect Money-Advacash, Payeer-Western Union), and buy the official currency (Nitecoin) from one of the platforms that will be listed and then you will send it to us with information Your e-mail will be confirmed in less than 48 hours and you will receive the money safely.

### Buy Online

We will partner with some trusted e-shops such as Ebay-Bangood-Jumia-Alibaba-Sony-Samsung,... as well as some airline booking sites, hotel reservation sites, and ticketing sites... The -NitecoinPay- will be integrated into these sites and the Nitecoin community will be able to benefit from good discounts and privileges, including the guarantee of refunds in case of loss or damage of goods. This will make most customers prefer to choose the method of payment (Nitecoin) and will help to push the price of the currency forward, saying that the final number of the currency of Nitecoin does not exceed 120 million token units.

## Action map

You can clearly review them at <https://www.nitecoin-pay.club/>

### May 2018 END 2 July 2018 15

The process, which includes the ICO, in addition to the publicity, the first and second purchases, and the distribution of the Token, starting from 15/05/2018 and ending on 1 July 2018

### End Of July 2018

The Nitecoin community will be able to exchange NTCP in one of the large and reliable exchanges

### September 2018 10

Nitecoin will be integrated into digital currencies. The CryptoCurrency community will be able to convert their digital currency to Nitcoin and convert it into US dollars or Euros and convert them into their own digital banks (PayPal-payeer-Skrill-Perfect .( ... Money- Advecache- Western union

### Between October And December 2018

A partnership agreement will be signed between Nitecoin and the relevant electronic stores (Hotels- Aviation-Commodities-Games-Festivals-Markets ...) to integrate the payment method (Nitecoinpay) so that buyers can get great discounts and privileges

### March 2018

A partnership will be established with Visa Card Bank and credit card distribution (NetQueen Visa Card) so that NetQueen owners can withdraw their balances in cash from any ATM in the world. Note: The Cryptocoinology community will be forced to buy NetQueen and transfer it to their accounts so that they can withdraw funds ... This will help a lot of added value

### May 2018

The currency will be launched by Nitecoinpay Cash and its total Supply will be the same as the total Supply of the Nitecoinpay currency All those who own the Nitecoinpay will receive the same number of Nitecoinpay cash in their Ethereum wallet portfolios or exchanges: For example, if you have 50,000 coins from Nitcoin you will get the same number of free Nitecoinpay .cash regardless of their market value

### JULY 2018

We will start to build smart contracts based on Ethereum Sale and transfer of ownership in exchange for payment in the official currency (Nitecoinpay) The amount will be donated monthly or seasonally to charities ... This will help the project to prosper and further value added to the .currency ... will have a big business

## The problem that Nitecoin-pay came to solve

### Problem

The Blockchain industry has moved from the stage of POCs into more tangible business opportunities. Unfortunately those opportunities are being explored and build in isolation by large enterprises but small and medium companies and consumers are not participating in this revolution, despite the clear benefits that will bring to expand the network to everyone.

Limited Adoption

High Costs

Poor Resources

No Trust

Not User Friendly

Blockchain applications offer solutions that require significant changes to, or the complete replacement of, existing systems. In order to make the transition, companies and consumers alike must overcome these challenges. Additionally, the range of existing blockchain applications is still very limited, composed mainly of wallets, online exchanges, a small number of smart contract services, and monitoring tools. Most of these are not user friendly or widely understood<sup>6</sup>. Likewise, the number of skilled experts and app/smart contract developers is limited, just now starting to grow. In short, the space is fragmented and in need of a platform that ties these stakeholders and applications together to yield much greater value for the broader market.

We see the next wave of advancement for blockchain being focused on building the application ecosystem to bridge the blockchain protocols with mainstream consumers.

As the last few decades of innovation have shown, leveraging a network can create the change required to solve problems of this scale. **Nitecoin-Pay** Smart Contract

Marketplace and App Platform ecosystem intends to be an essential application hub for these developer resources and user applications.

To make this happen, it is essential for us to catalyze the network effect for smart contract development & deployment. This requires that tools be built for all types of businesses and

consumer use cases. This is what Nitecoinpay's Smart Contract Marketplace is all about. We will leverage our existing products and services to facilitate a successful ecosystem for smart contract development and use. We hope that the result will be widespread cryptocurrency use and smart contract deployment for real world business and individuals alike. One significant example of the problem resides in the global payment world that is still fragmented by payment applications like Square, Venmo, Virvox and PayPal. We see the need for a truly borderless global transaction network because this is the trend for the flow of business transactions and social payments. With people being far more mobile, where international lifestyles and businesses are becoming the norm, growth of international transfer costs are substantial. This cost is a big inhibition to the lifestyle trend of the global population. This is just 7 one major real world problem that Nitecoinpay is poised to solve.

## Solution

Nitecoin's Smart Contract Marketplace and Platform will allow for easy, user-friendly access to blockchain technology -- crypto-currencies and smart contracts alike.

While some smart contracts will be very technical and highly specialized, requiring entire businesses to be built around a single sophisticated contract, many others will not be. **Nitecoin's** smart contract marketplace intends to be the Smart Contract App store for developers to develop, deploy, manage, monitor, upload and sell their work, and for buyers to purchase and deploy them. The **Nitecoin** Smart Contract Marketplace will support APIs for 3rd party apps to integrate with, so that smart contracts can easily be deployed through an ecosystem of apps that enable buyers to deploy smart contracts and solve real world problems.

## Nitecoinpay Token Utility

Nitecoinpay is a token driven marketplace and app platform ecosystem that intends to increase accessibility, trustworthiness and community of blockchain enabled smart contracts. It empowers rapid adoption for all parties involved, including buyers and developers of smart contracts to start, with opportunity for consumer engagement in the future.

Nitecoinpay's token is the ERC20 utility token, built on the Ethereum blockchain.

The Nitecoinpay token is for Nitecoinpay's Smart Contract Marketplace and App Platform ecosystem. All

services and features within Nitecoinpay will be paid for and remunerated in Nitecoinpay tokens, at least

on the first phase; subsequently we are looking to introduce solutions to enable easy convertibility.

The Nitecoinpay token intends to empower the following functions:

- Pay platform fees
- Pay platform service fees
- Pay product fees
- Make smart contract purchases
- Gain access to a complete suite of API's for decentralised transactions.
- Oracle services and validation of smart contracts

### Smart Token Model:

The utility token that is created at the Token Sale by the Nitecoinpay is an ERC20 compliant token,

and is divisible up to 18 decimals. It comes into existence through the sale to contributors in exchange for other accepted currencies, like ETH, BTC, and EUR. Nitecoinpay's are fully convertible

to other listed currencies on External Exchanges, as well as via an internally operated exchange called the Nitecoinchange.

How the Token will be generated, the Developer Community production of code is where we begin. Developers develop code, organise Quality Assurance and Security Assurance (pen-testing). Each party's contributions are logged and agreed upon as a percentage of the total

work. Approved code is submitted for listing on the Marketplace. As a part of listing, the developers decide on the type of license and the price. Code can be licensed as open source with

attribution, freeware, or paid only. Paid code can be priced in whichever major currency the developers choose (e.g. USD, EUR, ETH, BTC, etc.) though license fees will always be paid in NTICP.

Fee options include one-time, recurring, and/or pay per use

## Prospective partners

# ICO

You can simply send the amount of ethereum you want to invest to the address of the smart contract below it and should not be less The participation is 0.1 Ethereum and is not more than 500 Eth and will automatically receive your Token currency. Each 1 eth you can get 10,000 NTICP Token + 60% = 16000 NTICP

**SMART CONTRAT ADRESS :**

**0x798f81c00c0a1122370debc1e4df9567f3893e11**

You can set gas more than 20 Wei

**Or visit the link below** <https://goo.gl/4A432T>

## Price in pre-ICO and ICO

**PRE-ICO** start in 15 May finish in 15 June 2018

- Each 1 eth you can get 10,000 NTICP Token + 60% = 16000 NTICP

**ICO** start in 15 June finish in 02 July 2018

- Each 1 eth you can get 10,000 NTICP Token + 20% = 12000 NTICP

**Additional-ICO** start in 02 July finish in 20 July 2018

The market is activated (Additional-ico) only if the maximum number of symbols is not sold and will be inserted in the remaining stage ICO

- Each 1 eth you can get 10,000 NTICP Token + 5% = 10500 NTICP

## summary

Closing Remarks: We are deeply committed to the advancement of blockchain technology and crypto-currency adoption worldwide. Focusing on real-world applications and the social behaviors that make our world turn, we know that the result of attaining our goals will redefine life on earth. The status quo of money, banking, trade and commerce needed a reset, and this wave of innovation is irreversible. The question is how fast and how smooth can we (humanity) be in our collective transition to this new system of money, value, and technological advancement? Our vision is big and it cannot be accomplished alone, or strictly in-house. It takes a village to raise a child and a community to realize a dream.

Thank You We sincerely appreciate you taking the time to read our whitepaper and explore our vision. We welcome your feedback and look forward to connecting with you in our forums. Thank you for joining us this far! We hope you decide to get more involved with the user community and participate with us to move the entire blockchain world forward

**Team Nitecoinpay**
